

ENVIRONMENTAL POLICY

The environment is the physical, biological, social, economic, and cultural surroundings where living beings interact with each other throughout their lives.

Environmental problems are mainly caused by people. It is very important to educate people and help them develop responsible behavior towards the environment. At Litore Hotel, we believe that if we start protecting the environment within our own business, we can also contribute to wider environmental efforts.

Our aim is to protect and improve the environment and to provide a healthier and safer world for future generations, humanity, and sustainable tourism.

Our Goals:

- To pass on a clean and healthy environment to future generations;
- To leave a livable world for sustainable life and tourism;
- To influence not only the Litore Family but also nearby businesses and employees through our environmental efforts;
- To reduce the amount of waste we produce;
- To live in harmony with nature and protect air, water, and wildlife;
- To protect and increase green areas;
- To avoid waste and use resources wisely;
- To be conscious consumers and prevent unnecessary consumption;
- To use natural resources efficiently and minimize consumption;
- To regularly monitor and improve our environmental processes;
- To consider environmental factors in our investments;
- To separate recyclable waste from general waste and support recycling.
